MaxLight Solar Skylights

The innovative MaxLight Solar Skylight is a clever addition to SolarBright's daylighting solutions. It offers customers an alternative option to brighten up their home or workplace when the installation of a MaxLight tubular skylight is structurally not possible.

Cutting Edge Technology with Solar Panels and Built-in Lithium Battery.

MaxLight Solar Advantages

Easy installation,

lumens in
brightness

Works day
& **night**

(Day & Night model)

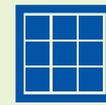

Control light
levels via
remote control

(Day & Night model)

10 Year solar
panel warranty,
3 Year LED &
battery warranty

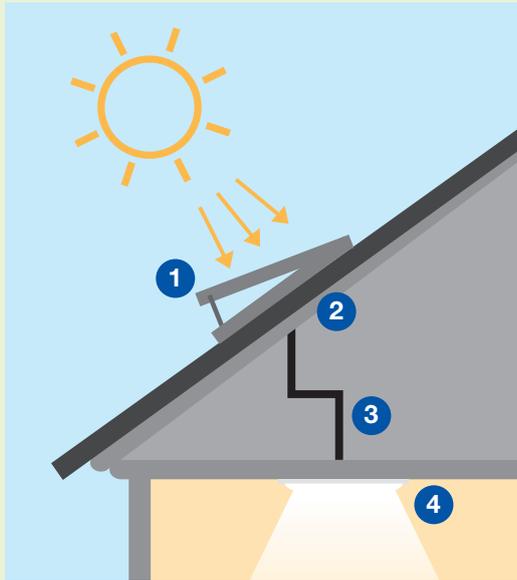

MaxLight Solar Skylight 15W Standard

15W solar panel

Round OR Square
15W LED Light

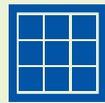

How it works

1. A high quality 15W solar panel that can be easily mounted on all types of roofs, is used to capture the sunlight.
2. The solar panel converts the sunlight into electricity, this clean and free electricity is used to power the 15W LED light.
3. A 10m cable is supplied to connect the solar panel and the LED light.
4. An attractive light fixture is supplied to be fixed on the ceiling with an option of round or square light fixture to select.

MaxLight Solar Skylight 30W Day & Night

The most advanced solar powered skylight in Australia.

30W Solar Panel

6.4Ah Battery

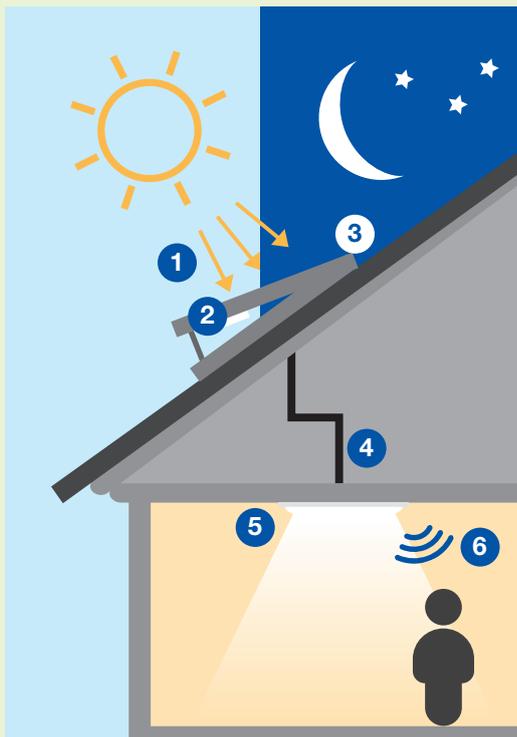

Movement Sensor

Remote Control

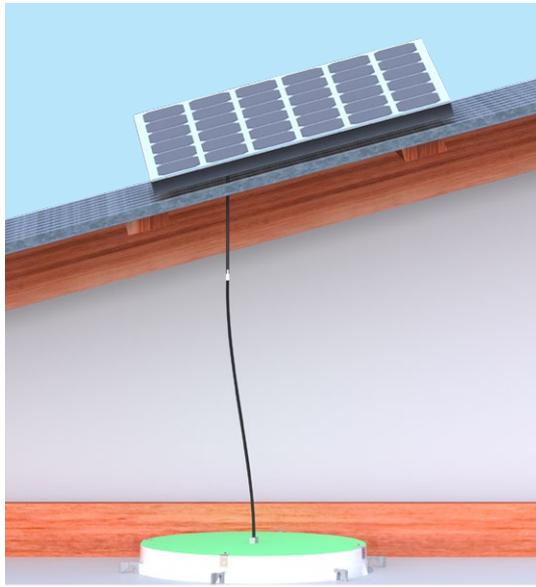

Round OR Square
15W LED Light

How it works

1. A high quality 30W solar panel that can be easily mounted on all type of roofs, is used to capture the sunlight. The solar panel converts the sunlight into electricity, this clean and free electricity is used to power the 15W LED light.
2. The surplus electricity produced is stored in a rechargeable lithium 6.4ah battery.
3. When the solar panel is not producing electricity (during night-time or overcast days), the battery will discharge the stored electricity to power the LED light.
4. A 10m cable is supplied to connect the solar panel and the LED light.
5. An attractive light fixture is supplied to be fixed on the ceiling with an option of round or square light fixture to select.
6. An intelligent sensor is supplied to detect movement inside the room and turn on the light when required. This will preserve the energy stored inside the battery.

SolarBright is the leading brand in offering both options: **Tubular Skylights** for delivering natural lighting and **Solar Powered LED Skylights**.
